SPACE RIC-O-SHAY

"**SPACE RIC-O-SHAY**" is a fast action space game played with one or two players. It's high resolution graphics and fast action make this number one in space games.

OBJECT OF THE GAME

You are approaching your galactic outpost on Sigma-Beta 7 when you spot an Alderon Mother Ship in orbit just above the 'L2' settlement. Since Alderons are wanted for planet piracy, you arm yourself and attack. But as the Mother Ship explodes, four Pods escape. These Pods contain an explosive that can destroy you on contact. So therefore your mission is not only to shoot down the Mother Ship but to destroy the explosive Pods before they descend and get you. Points are accumulated by destroying the Mother Ship and the Pods. The highest score after using 5 ships WINS.

DIRECTIONS

With your computer 'OFF', plug the "**SPACE RIC-O-SHAY**" game directly into your Commodore computer. Accessory JOY II joystick port (available from O.E.M. Inc.) is necessary for two players on the VIC-20. Your ship can move either right or left with the joystick or rollerball. Press the button to fire once or hold it down to fire repeatedly.

DO NOT plug or unplug your game with your computer on. This game may not operate if your disk drive is connected or if the shift lock is not in the up position.

1) Type from '3'(fastest) thru '9'(slowest) for speed.
2) Type '1' for one player or '2' for two players.
3) Hit FIRE Button to start.

GOOD LUCK!
MR. COMPUTER
